

## Lagondaforum: Driver mounting 2ltr LC

### Driver mounting 2ltr LC

*Written by Peter S30 at Nov 11, 2016 11:35 am*

I friend of mine took this lovely shot of me mounting the 2ltr just in the right moment, looks a bit like jumping-flying in the seat..

Fun thread! I see you use the left hand on the windscreen technique. I favour the left hand on the driver's seat back method but I am wary of putting too much weight on the seat back as I get in. What do others do?
