DB3ltr cookies

Written by Peter S30 at Dec 06, 2016 9:58 am

For my recent birthday my son made these nice cookies for me. He designed a 3d model based on a photo of a DB3ltr saloon and 3d printed the cutter. Two cookies are glued together with jelly so it can even stand on 4 wheels. I thought this post fits well for Saint Nicholas day

What a lovely surprise...

Will you be making local deliveries ? i

If yes, will order a set of six, we are on the other side of the water ...
