1937 LG45 Convertible. For Sale. My dad and I found this in 1990 in Northern California and had every intention of restoring it, and never did. Was running as of 2 years ago, but not since. Stored in heated, climate controlled garage. Original condition. Please email or call if you have questions, and I can send photos or more details. Thank you.

Sounds interesting. Any photos you could post on the forum?
