### LG45 Chassis

*Written by DavidLG45 at Oct 19, 2008 10:51 am*

I have taken my chassis apart for cleaning etc and am about to replace all the bolt with new HT BSF ones. Do I need to worry about the tightness of the bolts - as in use a torque wrench? If I do, what setting? Also the best way to fit the split pins.

Any advice appreciated.

David
