there are some Lagonda parts for different models at auction on 28.7.10 some look quite scrap and not cheap

(<http://www.hvauctions.com/lateentries.html>)

some might be interesting but you have to download the huge 70Mb catalogue and use the search function. <http://www.hvauctions.com/> including a pair of new old stock P100s !

(you also find rare parts for your Bugatti or Bentley..)
