Dash board fuel,amp,oil,temp indicator

Written by peternick at Dec 28, 2010 4:52 pm

My 38, V12 De Ville has some guages missing on the dash (or replaced by other types) can any body assist with a fix for this problem to briing it back to original?

You might try Mel Cranmer melcranmer@talktalk.net He has built several V12 Le Mans replicas and may have such parts left from these operations
