Well-- Here's another Barn Find!

Like so many, I bought KOT104 a DH and was starting on it when I was nailed by a PONZI scheme which ate hundreds of thousands of dollars leaving me in no condition to undertake the task.

The car originally belonged to Peter Bosworth, Hantrs

It's all there and I'm interested in passing it on to an ENTHUSIAST rather than a shop which will restore it and then flog it to whomever will pay the price.

I'm at dolphinporsche@cs.com

Dear Michael,

is this a V12? or is it the DB 2.6 DHC you mentioned elsewhere. If so, I will delete this input here and you can make a new post at the right place

Regards
