Lagonda DB 2.6L parts on ebay. (Finish 25.9.11)

Written by timballic at Sep 15, 2011 9:36 pm

During my childhood in the early 1960's my Father rebuilt a Lagonda DB 2.6L and a Lagonda 3L saloon prototype. Sadly both had to be sold in the early '70's.

I came across a box of unused parts which I have just placed individually on ebay, including: Speedo, Multi Gauge, Switch dial, window and door handles, Lagonda bonnet badge, interior mirror, nearside and offside petrol fillers and a fire extinguisher.

Please spread the word. ebay name, timstable
