DB 3.0 litre dhc rear screen surround details

Written by SRD at Mar 30, 2012 10:44 am

A fellow club member has recently forwarded me this link for a company who manufacturers or has made for them, rear windows for convertible hoods.

http://www.vintagecarparts.co.uk/products/906-hood-window-frame

The size offered is 460 x 150 and it is offered with a chrome, nickel or plain brass finish.

Cost is 222 pounds including VAT

They will also make special one off orders if required as well

I would appreciate a more accurate measurement, profile picture if possible, thickness and any good pictures from inside the hood of a 3.0 litre dhc please.

Please post here, since I think this may be a useful contact for other chrome trim

The glass is extra and included in the price.
