

Lagondaforum: DB3ltr DHC fuel tank sender

DB3ltr DHC fuel tank sender

Written by reevsy at Jan 23, 2008 3:45 pm

Hi all. I recently had to change the fuel sender unit on my 1957 DB 3lt DHC. After a long search I discovered that the TR3-3A tank sender unit is the same model. I only had to adjust the float height which is adjustable anyway.
