Hello Christian & all. Stainless Exhaust Specialists have now made & fitted the new exhaust & first rate it is! These chaps know their business & are making systems for just about every major high performance classic car. I now have the absolute optimum ground clearance & a lovely exhaust note! Glad to email pictures if required (this system will not take them as too big a file)

Regards,

Guy

Looks very good, and looking forward to hearing it (for comparison purposes of course)
