Love your factory tool, looks to be in super condition.

May I assume part of the TVJL reference collection ?

Indeed, Simon, indeed. Just about to depart for Beaulieu to try and find more treasures. 🤔

If you find any more treasures, would love to hear about them ?

Before I forget, did you bid on the collection of Lagonda material at the Bonham's AM auction? (there was a rare full electric circuit diagram in the lot)

I missed it entirely, Simon. Drat! Did you mention it, as I certainly would have had a go.

Yesterday was fun. However, I came away with a few fairly pedestrian AM & Lag brochures and an Edwardian foot warmer. 🍲
