

## Lagondaforum: wanted: brake cylinders

### wanted: brake cylinders

*Written by Pina at Feb 18, 2014 7:44 am*

Dear Forum members,

For a restauration of a 4.5 rapide, we are looking for two rear brake cylinders. second hand, good condition if possible, as the ones in the pictures, (no new ones available).

If anyone by chance has a set around would be highly appreciated.

Best regards

Adil

Hi,

Unfortunately I can't help with parts, but it looks like you have a rod or cable operated braking system on your Rapide, in which case you will not have brake cylinders on your car. I might be wrong but the casting on the right hand side of your pictured brake backplate appears to be what is termed an "expander", which I would think means the items you need are therefore the adjusters.

Laurence

Yes an expander is what you want.

Try David Ayre [www.davidayre.com](http://www.davidayre.com) Or LMB Racing in Belgium [www.lmbracing.be](http://www.lmbracing.be) - both carry second hand spares for Lagondas.

I have just had a quick look on ebay, is this the right one?

Similiar parts used on Rileys. Sometimes they are smaller sizes but worth while pursuing this avenue. I found the parts that I wanted (LG45) from a Riley specialist. Cant remember now exactly what parts or from whom but post again if you fail to find what you want.

Found it after some hunting !

Pina try Blue Diamond Services - Telephone (UK number ) 01458251147. They should be able to help or maybe point you in the right direction.

These are NEW items they sell for Girling rod brakes.
