Have you tried these guys? http://www.vintage-headlamp-restoration.co.uk/

They were very helpful when I was looking for an original "Le Mans" lens for my Aston.

Yes I gave them a call and they didn't have any, but thanks for the suggestion, I did get a new headlamp lens from them a while back, and found them very good as you say.

Hi Adrian

I think I have two of these from a S3 Saloon.

Will have a look and come back to you.

Hi Adrian

If you still need these, I have two.

Only issue is they are in New Zealand.

Happy to send if you want them.

Hi,

Thank you so much for responding to this. I have now found what I needed, and in fact have a couple of spares as well!

Now all I am looking for is interior door handle, which at some point must have broken and been replaced with a similar but not identical replacement.

Many thanks

Adrian
