Another 2.6 ltr w/o engine/box but quite a rare one.

Is this dash standard for MK2?

This is one of two surviving 2.6 litre Mk2, not seen for many years. Both without engine/gearbox

LAG/50/516 2150 6/1/1953 Post-War DB2.6 DB2.6 Mk2 YMF 148 now VB6J/124 SIn Lagonda

The rarest DB 2.6 saloon, so worth saving by someone !

This car has now been saved and is awaiting restoration by a UK club member and it now has a correct period engine and box with it.

The car will be potentially unique, the sole survivor of the 2.6 litre mk2 saloons.

That is very good news!

Would be nice to see some more detailed pictures later.
